### Notes:

- Unless otherwise noted, all data comes from the Census Bureau's 2022 American Community Survey (ACS), one year estimates, for the population 25 and older.
- Historical educational attainment comes from the Decennial Census for 1970-2000, and from the American Community Survey for 2010 and 2020 (five year estimates) and 2022 (one year estimates).
- "College" is defined as a bachelor's degree or higher from 1990 on, and as four or more years of schooling prior to 1990.
- "Some College" is defined as an associate's degree or some college with no degree from 1990 on, and as one to three years of college prior to 1990.
- Unemployment and labor force participation rates are calculated for ages 25-64.
- The race category "Other" includes American Indian and Alaska Native and "Some Other Race", when estimates are available.
- The map of educational attainment by county uses the 2022 5-year estimates from the ACS in order to reflect all counties.
- The bins for the map intervals reflect the quantile distribution for each geography.
